DETAILED ACTION

Clarification

The examiner notes for clarity of the record that the elected species as define by applicant in the Response to Restriction Requirement is drawn incorrectly. The species does not conform to the formula of claim 1. The species as drawn contains two Ci moieties instead of one. This should have been noted in the previous Office Action. The examiner regrets the oversight.

101 Rejections Withdrawn

The rejection of claim 61 under 35 USC 101, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment rewrites the claim as a method claim.

112 Rejections Withdrawn

The rejection of claims 1-62 under 35 USC 112, second paragraph, outlined in the previous Office Action, has been overcome by applicant's amendment. With respect to claims 1, 61 and 62, the claims have been clarified as appropriate. The amendment cancels claims 13, 14, 23 and 54-56. With respect to the remaining claims, the rejection is moot.

102 Rejections Withdrawn

The rejection of claims 1-62, in so far as they read on the species defined in the previous Office Action, under 35 USC 102(b), outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment narrows the claims such that M can only be Si or Ge. Claims 13, 14, 23 and 54-56 have been canceled.

Allowable Subject Matter

The elected species remains free of the prior art.

Applicant having overcome the outstanding 102 rejection, the search was therefore expanded as called for under current Office Markush practice, a compound-by-compound search, to include a single additional species. That species is defined when: $R^1=R^2=Me$; $R^4=perfluorinated\ phenyl$; $M=Si$; and $R^5=OR^3$ where R^3 is n-butyl. A rejection follows:

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-12, 15-22, 24-53 and 57-62, in so far as they read on the species defined above, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by *Journal of Chromatography* (1977), 132(3), p. 548-51 (CAPLUS abstract). The reference teaches applicant's compound: RN=62394-61-0.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
